

AMENDMENT TO THE CLAIMS

1. (previously presented) A computer readable medium including instructions readable by a computer which, when implemented, cause the computer to handle information by performing steps comprising:
 - receiving data over a wide area network indicative of input from a client device and an indication of a grammar from the client device to be used with the data indicative of the input to perform recognition; and
 - sending data indicative of recognition results for the data indicative of the input to a remote location on the wide area network.
2. (original) The computer readable medium of claim 1 wherein the indication provides a reference to a location of the grammar.
3. (original) The computer readable medium of claim 1 wherein the indication includes a reference to a language for recognition.
- 4-6 (Cancelled)
7. (original) The computer readable medium of claim 1 wherein the recognizer comprises a speech recognizer and the grammar relates to speech recognition.
8. (original) The computer readable medium of claim 1 wherein the recognizer comprises a handwriting recognizer and the grammar relates to handwriting recognition.
9. (original) The computer readable medium of claim 1 wherein the recognizer comprises a gesture recognizer and the grammar

relates to gesture recognition.

10. (original) The computer readable medium of claim 1 wherein the recognizer comprises a visual recognizer and the grammar relates to vision recognition.

11. (previously presented) A method for speech recognition in a client/server network, the method comprising:

receiving data over a wide area network indicative of input speech together with an indication of a grammar to be used with the data indicative of input to perform recognition;

processing the data using the grammar with a recognizer to obtain recognition results; and

sending the recognition results for the data indicative of the input to a remote location on the network.

12. (original) The method of claim 11 wherein the indication provides a reference to a location of the grammar.

13. (original) The method of claim 11 wherein the indication includes a reference to a language for recognition.

14. (original) The method of claim 11 and further comprising providing a prompt to the remote location.

15. (original) The method of claim 14 wherein providing a prompt comprises converting text data to speech data and providing the speech data to the remote location.

16-19 (Cancelled)
